Safety Tips / Announcements

P E T S C A M

*Looking for a pet online?
Don't get scammed.*

PART 1: How It Works

Scammers advertise pets that do not exist on classified advertisement websites.

Then the person searching for a new pet reaches out to the seller. The seller asks for a down payment for the animal. The scammer then asks for additional funds to cover the cost of things like shipping crate, insurance, or other reasons. The scammer continues to ask for money until the victim catches on and stops sending money, often out hundreds or thousands of dollars.

PART 2: Buying Tips

- Never send money for a pet purchase unless you have seen the animal in person.
- Deal with local breeders, animal shelters, and rescue groups.
- It is a red flag if someone requests payment via wire transfer (Western Union or MoneyGram) or prepaid debit card (Green Dot MoneyPak, Reloadit, etc.)
- Do your research on the seller before sending any money, Googling the seller's full name, address and phone number. Do not buy a puppy from a breeder without being able to see where the puppy is living and meeting the puppy's mother. If no information is found, or they refuse to let you go to the puppy's home, chances are it is a scam.
